WIE
WAIKATO INSTITUTE OF EDUCATION

English Studies for Aviation

Waikato Institute of Education's English Studies for Aviation has been developed specifically for those who work in the aviation industry and need to comply with the International Civil Aviation Organisation's (ICAO's) language proficiency requirements.

This Course Aims To:

- Assist aviation students in reaching the required ICAO Level 4 of English language proficiency
- Build confidence with converstaional skills and technical language needed for use during training and active duty
- Equip students with extended vocabulary and comprehension to ensure effective communication

Why Study ESA At WIE?

This course is built around topics and themes within the context of aviation, with specific reference to and focus on the assessed elements of pronunciation, structure, vocabulary, fluency, comprehension and interactions.

Course presentations focus on 12 aviation-based themes, each containing a variety fo topics specific to the technical language requirements of aviaiton. Aviaiton topics covered as part of the themes will include:

- Areodome layout
- Navigation
- Topographical features
- Equipment failure
- And many more...
- Runway incursions
- Time of day
- Flight deck
- Capacity
