

WAIKATO INSTITUTE OF EDUCATION

ONE-TO-ONE TUITION

Private sessions with a dedicated personal tutor who will create a tailor-made programme just for you.

One-to-One tuition gives you the opportunity to concentrate on your own areas of priority. Your tutor will perform a detailed needs analysis before starting and develop a fully individualised curriculum that addresses your specific needs.

You decide on how many hours per week and when you want to start and finish the course. The academic team then works with your teacher to put together an exact timetable. Your progress is regularly evaluated and you receive detailed feedback throughout the course.

Sessions can be arranged anytime during the week. Evening and weekend classes are also available upon request.

CURRICULUM CAN BE CUSTOMISED TO INCLUDE:

- General English
- Exam Preparation (IELTS, TOEIC, OET, Cambridge)
- Accent and pronunciation
- Focus on a particular skill, i.e. reading or writing
- Speaking and communication
- Other languages (please enquire)

Want more than 25 hours of study per week?

Speed up your learning by adding One-to-One tuition to your course. One-to-One tuition can be combined with any of our part-time and full-time courses, to allow you to focus on areas you struggle with and create a more intensive learning experience.

Can't attend English classes because of work commitments?

With One-to-One tuition, you can design a timetable that fits around your work hours. Many employers consider our One-to-One tuition as "Professional Development" and may help finance the course.

Planning to sit IELTS but not confident you will pass?

Students planning to sit exams often need to improve their English skills within a short timeframe. One-to-One tuition will help you achieve the results you want, whether you plan to sit the exam next week, next month or at a later date.

Contact WIE to discuss your specific goals. Our staff will be happy to put together a program that fits your needs and schedule.
